

Daytona AC Classics GTX

A short shaft all-rounder in a chic retro look.

Available from the end of April 2019.

The AC Classics GTX:

- + high-quality nubuck leather
- + waterproof and breathable with Gore-Tex More Season Membrane
- + loop at back for comfortable entry
- + shoelaces and zipper
- + air insole, anatomically shaped
- + elastic, pleasantly soft shaft edge
- + ankle protection on both sides
- + padded on the inside of the ankle with open-cell special foam
- + Leather-reinforced bootleg for clutch operation
- + Because of the plastic-reinforced insole with hot dipped galvanised steel inlay, boots are twist resistant, yet easy to unroll.
- + rubber sole with heel

If Luis Trenker had had this boot, he would have changed onto a motorcycle right away! Because the AC Classics GTX is like a mountain shoe from the good old days. Retro, cool and quite a statement on the foot - in brown or in black. For women and men. This short shaft boot not only looks like a hiking boot, it also feels very similar. Comfortable and stable. The sole is torsion-resistant, but still rolls off well. The profile rubber sole and the classic heel match the authentic look.

Inside, the AC Classics GTX is one of Daytona's most modern. Of course, the Gore-Tex More Season Membrane is absolutely waterproof - after all, even mountaineers never know exactly how long the weather will last. With the loop at the back you can put it on quickly for the next ride.

Shaft height approx. 20 cm

Sizes: 36 – 49

Colours: black / brown

Price: 269,95 €

Loop at back for comfortable entry
