

Daytona SL Pilot GTX

The women's short-shaft allrounder with 6 cm raised sole.
Available from March 2019.

The SL Pilot GTX:

- + 6 centimetres higher thanks to internal cork sole elevation with leather cover
- + high quality water resistant material greased special full-grain leather with reflective bise
- + waterproof and breathable thanks to Gore-Tex Duratherm Membrane
- + elastic, soft inserts at the heel
- + textile lining (80 % polyamide, 20 % polyester)
- + Abrasion-resistant strengthened polyurethane
- + Polyurethane foam midsole
- + Fitted plastic component at the ankle, padded inside with open-cell special foam
- + plastic component (PHTP-TR) on the shin

- + thanks to plastic-reinforced inner sole and hot-dip galvanised steel inlay torsion-resistant, yet easy to unroll
- + 3M-Scotchlite heel reflector
- + non-slip rubber sole

Shaft height approx. 20 cm

Sizes: 36 – 41

Colours: black

Price: 279,95 €

Particularly pleasant material characterises these short-shaft boots for ladies. The strong cowhide leather outside is water-repellent greased. Inside, a durable textile lining ensures the right climate.

Elastic, soft inserts are worked into the heels so that there is no pressure. The plastic components on the ankle and the shinbone, which provide more safety for the foot, are carefully padded inside.

Naturally, the SL Pilot GTX keeps your feet dry, even in the rain: This is guaranteed by the waterproof, breathable Duratherm Membrane from Gore-Tex. You also have a good footing: the special touring sole is skid-proof and stable. And the built-in increase brings a plus of six centimeters.
