

Daytona TransTourMan GTX

Travel enduro boots with cross genes.
Available from the end of April 2019.

Velcro and zipper. Elastic suspension and adjustable for maximum individual adjustment and easy access.

Two padded shaft ends keep dirt and splash water away.

Waterproof and breathable thanks to Gore-Tex Duratherm Membrane.

Massive shin protector.

Large-surface plastic switching reinforcement.

Heel protector.

Buckle-buckle. Adjustable in increments for different foot widths.

Three-coloured enduro sole. The wearing part for footrests can be replaced.

Inner side protection for ankle and calf. Nubuck leather with plastic lining.

Our sporty newcomer likes to travel over hill and dale. He doesn't care about the weather - the main thing is to let off steam and have fun. Protectors on heels, tibia and the inside offer a plus in safety. And thanks to the clever solution with Velcro and zipper, getting in is extremely easy.

Shaft height approx. 35 cm
Sizes: 38 – 49
Colours: black
Price: 499 €

Also, of course, equipped with the daytona-Basics for safety and comfort:
+ strong special full-grain cowhide, water-repellent oiled

+ textile lining (80 % polyamide, 20 % polyester)
+ PU foam midsole
+ air insole, anatomically shaped
+ thanks to plastic-reinforced inner sole and hot-dip galvanised steel inlay torsion-resistant, yet easy to unroll
